Access to Documents

You have the right, upon request, to obtain a copy of the policy, your application and any written statements or other records you have provided to Canada Life as evidence of insurability, subject to certain limitations.

Legal Actions

Insured benefits

Every action or proceeding against an insurer for the recovery of insurance money payable under the contract is absolutely barred unless commenced within the time set out in the *Insurance Act* (for actions or proceedings governed by the laws of Alberta and British Columbia), *The Insurance Act* (for actions or proceedings governed by the laws of Manitoba), the *Limitations Act, 2002* (for actions or proceedings governed by the laws of Ontario), or other applicable legislation. For those actions or proceedings governed by the laws of Quebec, the prescriptive period is set out in the Quebec Civil Code.

Non-insured benefits

No legal action to recover non-insured benefits under this plan can be introduced for 60 days after notice of claim is submitted, or more than two years after a benefit has been denied.

Appeals

Insured benefits

You have the right to appeal a denial of all or part of the insurance or benefits described in the contract as long as you do so within one year of the initial denial of the insurance or a benefit. An appeal must be in writing and must include your reasons for believing the denial to be incorrect.

Non-insured benefits

You have the right to appeal a denial of all or part of the coverage or benefits described in this plan as long as you do so within two years after the denial. An appeal must be in writing and must include your reasons for believing the denial to be incorrect.

Benefit Limitation for Overpayment

Insured benefits

If benefits are paid that were not payable under the policy, you are responsible for repayment within 30 days after Canada Life sends you a notice of the overpayment, or within a longer period if agreed to in writing by Canada Life. If you fail to fulfil this responsibility, no further benefits are payable under the policy until the overpayment is recovered. This does not limit Canada Life's right to use other legal means to recover the overpayment.

Non-insured benefits

If benefits are overpaid you are responsible for repayment within six months, or within a longer period if agreed to by your employer. If you fail to fulfill this responsibility, further benefits will be withheld until the overpayment is recovered. This does not limit your employer's right to use other legal means to recover the overpayment.

Quebec Time Limit for the Payment of Benefits

Where Quebec law applies, benefits will be paid in accordance with the terms of the plan within the following time period:

- for death benefits, 30 days following receipt of the required proof of claim.
- for disability income benefits for which there is no waiting period, 30 days following receipt of the required proof of claim.
- for disability income benefits for which there is a waiting period, 30 days from the expiry of the waiting period provided the required proof of claim has been received.
- for any other benefit, 60 days following receipt of the required proof of claim.

Employer Role

For insured benefits, the employer's role is limited to providing employees with information and not advice.

Notice of Liability for Benefits

Your employer has entered into an agreement with The Canada Life Assurance Company whereby the Dental benefits outlined in this booklet are uninsured and your employer has liability for them.

This means that the Dental benefits are:

- an unsecured financial obligation and are payable from your employer's net income, retained earnings or other financial resources; and
- not underwritten by a licensed insurer or regulated insurer.

All claims will, however, be processed by Canada Life.

If British Columbia law applies, the giving of this notice exempts your employer from the requirements under the *British Columbia Financial Institutions Act*.

If Quebec law applies, any uninsured benefit is not under the supervision and control of the Autorité des marchés financiers.

Welcome to Canada Life!

Welcome to Canada Life! Your employer and Canada Life have worked together to develop a package of benefits to meet your needs. These benefits are an important part of the total compensation package from your employer.

Our goal is to make it easy for you and your family to have your questions answered. If you have any questions about your benefits, you can ask your employer or contact a customer service representative.

Why is this booklet important

This booklet outlines the benefits that are available under your employer's policy with Canada Life. The section called "General Terms" includes facts about eligibility and enrolment. This is followed by a section on each of your benefits, containing benefit descriptions and the coverage that each benefit provides and what you are not covered for.

Definitions

Here are definitions for some of the terms in your employee booklet. You will find more definitions included in each section.

Actively at work

You are actively at work if you are carrying out your normal duties at:

- your employer's place of business; or
- some other location required by your employer's business.

You will also be considered actively at work if you are absent only due to a scheduled day off or vacation but otherwise able to carry out your normal duties.

Covered person

Covered person means a person who is covered under the plan.

Earnings

Earnings means your gross annual salary before any deductions, but does not include other compensation such as commissions, bonuses, dividends, overtime, profit sharing or car allowances.

Weekly earnings are annual earnings divided by 52.

Monthly earnings are annual earnings divided by 12.

Emergency

An emergency means any sudden, unexpected illness or injury for which the insured person needs immediate treatment.

Employee

Employee means you while working for your employer on a permanent and non-seasonal basis for at least 20 hours a week.

Illness

Illness means a sickness or disease of the mind or body, including conditions related to pregnancy.

Insured person

Insured person means a person who is covered under the policy.

Reasonable Treatment

Reasonable treatment means treatment that is considered reasonable if it is accepted by the Canadian medical profession, it is proven to be effective, and it is a form, intensity, frequency and duration essential to diagnosis or management of an illness, injury or pregnancy.

Waiting period for coverage

The waiting period for coverage is the time you must wait before coverage may begin.

Waiting periods for disability payments

The Short Term Disability waiting period is the time you must be absent from work due to disability before Short Term Disability payments may be made. Please refer to the "Short Term Disability coverage" section for details.

The Long Term Disability waiting period is the time you must be absent from work due to disability before Long Term Disability payments may be made. Please refer to the "Long Term Disability coverage" section for details.

We, our and us

We, our and us mean The Canada Life Assurance Company.

General Terms

Waiting period for coverage

There is no waiting period for coverage.

When your coverage begins

You must enrol to receive coverage. Your employer can provide you with the form to complete. This form must be signed and dated.

When you enrol

If you are not actively at work

If you are not actively at work on the date coverage would begin according to the following, your coverage will begin when you are actively at work.

If you enrol before the end of the waiting period for coverage

Coverage will begin on the day after the waiting period for coverage ends, if you are actively at work on that day.

If you enrol after the end of the waiting period for coverage

If you enrol within 31 days of the end of the waiting period for coverage, coverage will begin on the day after the waiting period for coverage ends, if you are actively at work on that day.

Evidence of good health is required if you enrol more than 31 days after the end of the waiting period for coverage. Coverage will begin on the date the evidence of good health is approved by us, if you are actively at work on that day.

What changes to report to your employer

You must report the following changes immediately to your employer:

- change to your coverage;
- change of name;
- change of beneficiary, or
- change of banking information (if we are depositing your claim expenses directly into your bank account).

You report these changes by filling out the appropriate form that is available from your employer. You must sign and date all forms.

Any resulting change in your coverage will take effect on the date the above changes occur. You must be actively working for any increase in coverage to take effect.

When your coverage ends

This section applies to all benefits. Any additional terms that apply to a particular benefit have been included in that benefit section.

Your coverage ends

Your coverage will end on the earliest of the following dates:

- the date you no longer satisfy the definition of employee;
- the date you become a full-time member of the armed forces.

If you are absent from work due to a temporary lay-off, coverage may be continued until the last day of the month in which the lay-off began, unless the temporary lay-off is due to the end of the school year, in which case coverage will continue until the beginning of the following school year.

Beneficiary designation

You may make, alter or revoke a designation of beneficiary as permitted by law. Any designation of beneficiary you made under your employer's previous policy prior to the effective date of this policy applies to this policy until you make a change to that designation. You should review your beneficiary designation made under this policy from time to time to ensure that it reflects your current intentions. You may change the designation by completing a form available from your employer.

Medical examinations and autopsies

When you apply for coverage, we may ask for a medical examination by a physician of our choice, depending on the medical condition or the amount of coverage applied for. We will pay for this examination.

You will have to pay for this examination if the application is completed more than 31 days after the end of the waiting period for coverage.

When you submit a claim for payment, we may ask the covered person to have medical examinations by physicians of our choice. We will pay for these examinations. We will not make any claim payments if the covered person refuses to have these examinations.

If a death occurs, we can ask for an autopsy to be performed. We will pay for the autopsy.

Recovering damages from a third party

If another person or organization is responsible for causing a disability or a medical or dental condition, we will suspend payments and recover our payments from the amount you recover for loss of income or the medical or dental condition through legal action or an out-of-court settlement as we are entitled in law to do. We also reserve the right to recover our payments directly from the person or organization that caused the disability or condition. You shall co-operate with us in our attempt to recover our payments, including participation in a lawsuit. You must notify us of any planned legal action and when payments are received.

Incontestability

If a loss or disability occurs within the first two years of coverage or increased coverage, we will void coverage retroactive to the effective date of coverage or increased coverage, if the covered person made any false statements or withheld any information on the enrolment form, evidence of good health form or in any written statement.

If a loss or disability occurs two or more years after coverage begins or increases, we will void coverage retroactive to the effective date of coverage or increased coverage, if the covered person fraudulently either made any false statements or withheld any information on the enrolment form, evidence of good health form or in any written statement.

We can end coverage at any time if the covered person made any false statement about age.

Your Health Care coverage

What is Your Health Care coverage

We will pay for the usual cost of covered services and supplies that are medically necessary to treat an illness, injury or pregnancy.

We will only cover:

- The amount that is usually charged for the service or supplies in the area in which the charge is made.
- Services and supplies that are needed to diagnose or treat an illness, injury or pregnancy and that are recognized by the Canadian Medical Association as effective and appropriate and based on accepted standards of Canadian health care.
- Services and supplies that we are legally allowed by the government to cover. We will not cover any portion of services or supplies which the insured person is entitled to receive, or for which the insured person is entitled to a benefit or reimbursement, by law or under a plan that is legislated, funded, or administered in whole or in part by a government ("government plan"), without regard to whether coverage would have otherwise been available under this plan. In this limitation, government plan does not include a group plan for government employees.
- Charges for services and supplies that are incurred while the person is insured.

The coverage includes the following. Details of coverage can be found under "What you are covered for":

- Drugs
- Hospital accommodation
- Laser eye surgery, eye examinations, eyeglasses or contact lenses
- Medical services and equipment
- Paramedical services
- Referrals for medical treatment outside the insured person's home province
- Emergency out-of-province/country treatment

How much we will pay

We will pay a percentage of the covered medical costs, up to any maximum amounts stated in the description of the benefit. Before we pay a benefit under this coverage, you must pay the deductible amount if any.

The deductible is \$25, each calendar year, unless otherwise shown below.

The following is an overview of what we will pay. Please see the "What you are covered for" section for specific details.

For covered drugs purchased in Quebec, 80% of the covered costs after the deductible is paid.

For covered drugs purchased outside Quebec:

- covered drugs purchased from Costco Wholesale Canada Ltd. or one of its affiliates using the drug card, 90% of the covered costs after the deductible is paid.
- covered drugs subject to Prior Authorization or Health Case Management and purchased from a provider designated by us (whether or not the insured person used the drug card), 90% of the covered costs after the deductible is paid.
- covered drugs purchased from another source or covered drugs purchased without the drug card, 80% of the covered costs after the deductible is paid.

For hospital expenses, 80% of the difference between the cost of a ward and a semi-private room in a hospital after the deductible is paid.

For laser eye surgery, eyeglasses and contact lenses, 80% of the covered costs up to \$300 and \$65 for eye examinations in any two consecutive calendar year period for an insured person age 21 and over and every calendar year for an insured person under age 21 after the deductible is paid.

For emergency out-of-province/country, 100% of the covered costs above the insured person's provincial health plan coverage with no deductible.

For all other expenses, 80% of the covered costs after the deductible is paid.

When your Health Care coverage ends

Please see "When your coverage ends" in the "General Terms" section for additional terms that apply to when your coverage ends.

If the insured person is totally disabled when your employment ends

Coverage will be continued for you if you are totally disabled on the date it would otherwise end because you are no longer employed. We will continue to pay covered costs that result from the total disability for 90 days, while the policy is in force.

For Health Care coverage, you are totally disabled while unable to perform the essential duties of any occupation for which you are reasonably suited by education, training or experience, for any employer.

What you are covered for

Drugs

We cover the cost of drugs that can only be obtained with a prescription and are prescribed by a person entitled by law to prescribe them and dispensed by a person entitled by law to dispense them. We will only pay for eligible drugs that are approved by the Canadian government for sale to the general public and that have a Drug Identification Number (DIN). This does not include experimental drugs. We also cover some life-supporting, non-prescription drugs approved by us as well as disposable needles, syringes, lancets, testing materials and sensors for flash glucose monitoring machines for monitoring diabetes.

We cover up to a 100 day supply for all drugs.

An insured person can use the drug card to purchase eligible drugs. Use of the drug card authorizes us, or our authorized agent, to inform pharmacists and physicians on patient safety issues for the insured person. We, or our authorized agent, are not legally liable for this information.

An insured person may not be able to use the drug card to buy drugs from a physician, dentist, clinic, hospital, or some pharmacies, but you can make a claim for the cost of eligible medicines by using a claim form and including the receipts. A receipt must show the prescription number and the name of the drug or Drug Identification Number (DIN).

We will not pay for the following:

- alcohol
- bandages
- contraception, other than contraceptive drugs and products containing a contraceptive drug which are *not* used for contraception
- drugs used as abortifacients
- cosmetic items
- hair growth stimulants
- sunscreens
- cotton
- vitamins (except injectible), minerals, dietary supplements
- food substitutes, infant food or formula
- disinfectants
- homeopathic medicines
- immunizations and vaccines
- non-disposable insulin injectors
- products used to quit smoking
- spring loaded devices used to hold lancets
- products used to lose weight
- drugs or drug supplies that appear on an exclusion list maintained by Canada Life. Canada Life may exclude coverage for all covered expenses for a drug or drug supply, or only those covered expenses that relate to the treatment of specific diseases or injuries or the stages or progressions of specific diseases or injuries. Canada Life may add or remove a drug or drug supply from an exclusion list at any time.

For greater certainty, a drug or drug supply may be added to an exclusion list for any reason including, but not limited to, the following:

- Canada Life determining that further information from professional advisory bodies, government agencies or the manufacturer of the drug or drug supply is necessary to assess the drug or drug supply; or
- Canada Life determining that the drug or drug supply is not proportionate to the disease or injury or, where applicable, the stage or progression of the disease or injury.

Hospital accommodation

We will cover the difference between the cost of a ward and a semi-private room in a hospital. Room charges for outpatients will not be covered. The hospital stay must be because of illness, injury or pregnancy.

A hospital is a facility that is licensed to provide active, convalescent or chronic care treatment for sick or injured patients. It does not include nursing homes, homes for the aged, rest homes or any other facility that provides similar care.

Laser eye surgery, eye examinations, eyeglasses or contact lenses

We will cover the cost of laser eye surgery, contact lenses or eyeglasses, including sunglasses or safety glasses, prescribed by an ophthalmologist or optometrist, if they are prescribed to correct vision. We will pay up to the maximum amount shown in the "How much we will pay" section.

We will cover the cost of one eye examination (including eye refractions)

- every calendar year for an insured person under age 21, or
- every two calendar years for an insured person age 21 or over.

We will pay 50% of the cost of:

- visual training
- remedial exercises.

When you make a claim, make sure that the receipt includes the name of the person who was prescribed the eyeglasses or contact lenses, as well as the date on which they were received. Receipts for deposits are not acceptable. If you have a receipt for a deposit, send it along with the receipt for the balance when you make a claim.

Medical services and equipment

We will cover the cost of the following services and supplies if they are prescribed by a physician:

- services provided by a professional nurse. We must approve the services before we will cover the cost. These services must be provided in the insured person's home by a professional nurse who does not normally live with, is not related to, nor is a member of the insured person's immediate family.

We will pay up to \$10,000 per calendar year until the insured person reaches age 65. After age 65, we will pay up to \$10,000 per calendar year with a lifetime maximum of \$25,000. This change to a lifetime maximum takes place on the January 1st following the 65th birthday. If the birthday is January 1st, this \$25,000 lifetime maximum begins on the 65th birthday.

We will not cover the cost of a professional nurse if the care they provide is not the skilled duties that only they can provide. We will also not cover the cost of care from a professional nurse that is provided in a nursing home, rest home, home for the aged, hospital, or any facility that provides similar care.

A professional nurse is a Registered Nurse or a Licensed Practical Nurse. If the insured person lives in Ontario, a professional nurse is a Registered Nurse or a Registered Practical Nurse.

- out-patient services and supplies from a hospital in the insured person's home province or from a surgical supply company.
- walkers, braces, artificial limbs and eyes, and other prosthetic devices that we approve. As the cost of these items varies greatly, we recommend that you contact us before purchasing a device. We will ask you for the written information that we require to determine how much of the cost we will cover based on the least expensive device that is medically adequate and, once it is provided, we will advise you of the amount we will cover.

- crutches and canes.
- initial pair of frames and one corrective lens, contact lens or prosthetic lens prescribed after cataract surgery and only for the eye that had the surgery. We will cover once per eye in the insured person's lifetime.
- breast prosthesis after a mastectomy, including replacement(s) every two calendar years, and two surgical bras in a calendar year.
- oxygen.
- custom-made orthopaedic shoes, prescribed by a physician, podiatrist or chiropodist, when no other method such as orthotics and/or off-the-shelf orthopaedic shoes can correct the problem. We will cover one pair each calendar year. We will not cover modifications to shoes.
- foot orthotics prescribed by a physician, podiatrist, or chiropodist, 1 pair per two calendar years. They must be determined as being necessary by a biomechanical examination and be custom-made. They must be required to carry out regular daily living activities, and not just for sports or recreation. We will pay up to \$300 in any two calendar years.
- two pairs of surgical stockings each calendar year.
- wigs, up to \$100 in the insured person's lifetime following chemotherapy or radiation treatment, and up to \$250 in the insured person's lifetime for total hair loss from alopecia totalis, a medical condition where all of the hair is lost.
- certain diagnostic tests, radium treatments and x-rays performed in the insured person's province of residence when coverage is not available under the provincial government.

- services directly provided by a speech therapist. The speech therapist must be registered in the province where the service is given and cannot be a person who normally lives with the insured person nor be a person related to nor a member of the insured person's immediate family. We will pay up to \$1,000 per insured person in a calendar year.
- services directly provided by a clinical psychologist, qualified social worker or clinical counsellor. The psychologist or social worker must be registered in the province where the service is given and cannot be a person who normally lives with the covered person nor be a person related to nor a member of the covered person's immediate family. The clinical counsellor must be registered and treatment must be provided in the province of British Columbia. We will pay up to a combined \$1,000 per insured person in a calendar year.
- hearing aids and repairs, not including batteries. We will pay up to \$500 in any period of four consecutive calendar years.
- rental charges for wheelchairs, hospital beds and other temporary therapeutic equipment that we approve. We may cover the cost of purchasing this equipment if we determine that it is more economical than renting. We must approve the purchase before it is made. We will pay for the least expensive device that is medically adequate.

The following is a list of examples of items that we will cover if prescribed by a physician and approved by us:

- aerochambers
- apnea monitor
- casts
- ostomy supplies
- compressors
- blood glucose monitor
- flash glucose monitoring machines
- continuous glucose monitoring machines, to a maximum of \$4,000 per calendar year
- grab bars
- Mozes detector

The following is a list of examples of items that we will not cover even if prescribed by a physician:

- exercise equipment, machines or programs

Ambulance services

We will cover the cost of a licensed ambulance or other emergency service that transports the insured person to and from the nearest hospital that is able to give the necessary treatment. This covers travel between hospitals. If transportation is not provided by a licensed ambulance, we may also cover the cost of a person accompanying the insured person, if it is medically necessary.

Dental accident

If healthy, natural teeth are damaged or lost due to a sudden impact, we will cover the cost of the dental services required to repair or replace the teeth if the impact that caused the damage or loss happened while the insured person is covered under this provision. This does not include damage or loss caused by objects or food placed in the mouth.

The amount we will pay is based on the least expensive treatment that is adequate to correct the damage. We will not cover more than the fee stated in the current Dental Association General Practitioner's Fee Guide. This treatment must be completed within 12 months of the impact. If treatment is scheduled to occur more than 90 days after the impact, we must be given a treatment plan before the end of the 90-day period.

Orthodontic care must be for relocating teeth that are accidentally forced out of position or for splinting damaged teeth for stability. Dental procedures to correct existing crossbites, alignment of rotated teeth, closing of spaces, and uprighting teeth are not covered. Implants and treatment related to implants are also not covered.

Paramedical services

We will pay up to \$500 in a calendar year for the services of each of the following:

- acupuncturists
- chiropodists or podiatrists
- chiropractors

Costs for speech therapists and clinical psychologists are included in Health Care coverage. For details, please look under “Medical services and equipment.”

We will cover up to the usual charge for each service, up to the maximum charge set in the Schedule of Fees for the type of paramedical practitioner providing the service. If there is no Schedule of Fees, we will set a fee for the service.

We will cover the cost of laboratory tests and x-rays recommended by a licensed chiropractor, osteopath or podiatrist.

Where provincial registration exists, the paramedical practitioner must be registered in the province where the service is given, and the paramedical practitioner cannot be a person who normally lives with the insured person nor be a person related to nor a member of the insured person's immediate family.

Other Services and Supplies

We can, on such terms as we determine, cover services and supplies under this plan where the service or supply represents reasonable treatment.

Referrals for treatment outside your home province

If a physician in the insured person's home province gives a written referral for treatment that is not performed in that home province, we will cover the cost of the treatment as specified below, if it is provided in Canada or the United States.

The physician must give us full details of the treatment and we must approve it in advance. The insured person must apply and provide us with a statement from the provincial health plan that describes what it will cover.

We will pay up to \$10,000 in the insured person's lifetime for the following:

- hospital room and board at the ward rate
- hospital services and supplies, and
- diagnosis and treatment by physicians

Emergency out-of-province/country coverage

The insured person must be eligible for benefits under a government health plan in Canada or the government coverage replacement plan sponsored by your employer to qualify for emergency out-of-province/country coverage.

We will cover the cost of emergency treatment, described below, that is required while temporarily outside the home province, (including outside Canada) on business or vacation. We will not cover emergency treatment while travelling for health reasons. An emergency means any sudden, unexpected illness or injury which requires immediate treatment. We will pay up to \$1,000,000 for each insured person for all the covered costs related to any one emergency under this emergency out-of-province/country coverage. When emergency treatment for a condition is completed, any ongoing treatment related to that condition is not covered.

If you are on an approved leave of absence, we will only cover the first 30 days of a trip, and we will pay up to \$10,000 per year for each insured person. This limitation is not applicable to in-Canada emergency health care benefits.

Travelling outside Canada while pregnant: We will not cover any pregnancy related costs which are incurred outside of Canada within nine weeks of the expected delivery date. Costs associated with a child born outside Canada within nine weeks of the expected delivery date, or after the expected delivery date, are not covered.

When used under this emergency out-of-province/country section, hospital means a facility licensed to provide emergency treatment for sick or injured patients. It must have facilities for diagnosis and treatment. Physicians and registered nurses must be in attendance 24 hours a day. It does not include nursing homes, homes for the aged, rest homes, convalescent care facilities or any facility that provides similar care.

We will cover the charges for emergency treatment that are over the amount covered by the provincial health plan of the insured person's home province. This coverage includes the cost of:

- hospital room and board at the ward rate
- hospital services and supplies, and
- treatment by licensed physicians

In emergency out-of-province/country situations, other charges included under the Health Care coverage section of this policy are covered to the same extent that they would be in Canada. This includes coverage such as wheelchair rental, crutches and prescription drugs.

In the event of a medical emergency, you or someone acting on your behalf must contact the Travel Assistance Centre prior to seeking medical treatment. If it is not reasonably possible for you to contact the Travel Assistance Centre prior to seeking medical treatment due to the nature of the medical emergency, you must contact the Travel Assistance Centre as soon as possible. Failure to contact the Travel Assistance Centre as described will result in a reduction of benefits in the case of hospitalization of 40% of eligible costs. All costs for such emergency will be limited to your emergency out-of-province/country coverage maximum or \$25,000, whichever is less.

If a physician or the Travel Assistance provider recommends you to be moved to a different facility at the destination, and you choose not to go, eligible costs for emergency coverage will in the case of hospitalization be reduced by 40% of eligible costs. All costs for such emergency will be limited to your emergency out-of-province/country coverage maximum or \$25,000, whichever is less.

If a physician or the Travel Assistance provider recommends you return to your home province, and you choose not to go, emergency coverage will end.

What is not covered for Emergency out-of-province/country treatment

We will not pay for any costs resulting directly or indirectly:

- (a) from an accident occurring while you were operating a vehicle, vessel or aircraft, if you:
 - i) were impaired by drugs or alcohol, or
 - ii) had a blood alcohol level higher than 80 milligrams of alcohol per 100 millilitres of blood.
- (b) from the abuse of illegal substances.

Please see "What you are not covered for under any Health Care coverage" section for additional terms that apply to emergency out-of-province/country and the Health Care coverage.

How to make an out-of-province/country claim

There are special rules for claiming the costs of emergency treatment outside of your home province or Canada.

For all medical expenses, complete the applicable forms, making sure all required information is included. Attach all initial receipts and forward to Canada Life after the expense is incurred. This will enable Canada Life to co-ordinate payment directly with the hospital and/or medical provider involved, providing the insured person gives approval to Canada Life to co-ordinate payment with the Provincial Health Care plan. It is very important that you send your claims to the Canada Life Out-of-Country Claims Department immediately as your Provincial Health Care Plan has very strict time limitations.

If a medical provider or hospital bills you directly, send the bill along with your claim form to Canada Life Out-of-Country Claims Department.

What you are not covered for under any Health Care coverage

We can decline a claim for services or supplies that were purchased from a provider that is not approved by us.

We can limit the covered expense for a service or supply to that of a lower cost alternative service or supply that represents reasonable treatment.

We will not pay for the cost of:

- services or supplies associated with a covered service or supply, unless specifically listed as a covered service or supply determined by us to be a covered service or supply
- health care services or supplies that the insured person is eligible to claim under Workers' Compensation legislation in the insured person's province of residence
- health care services or supplies required due to intentionally self-inflicted injury
- health care services or supplies required as the result of war, rebellion, or hostilities of any kind, whether or not the insured person is a participant
- health care services or supplies required as the result of participation in a riot or civil disturbance
- health care services or supplies due to committing a criminal offence or provoking an assault
- services required by a court, the insured person's employer, a school or anyone other than the insured person's physician (For example, the insured person's employer requiring a doctor's note or a court requiring that the insured person receive psychological services.)
- drugs administered during treatment in an emergency room of a hospital, or as an in-patient in a hospital
- services or supplies that Canada Life has determined are not proportionate to the disease or injury or, where applicable, the stage or progression of the disease or injury. In determining whether a service or supply is proportionate, Canada Life may take any factor into consideration including, but not limited to, the following:
 - clinical practice guidelines;
 - assessments of the clinical effectiveness of the service or supply, including by professional advisory bodies or government agencies;
 - information provided by a manufacturer or provider of the service or supply; and
 - assessments of the cost effectiveness of the service or supply, including by professional advisory bodies or government agencies.

Prior Authorization

In order to determine whether coverage is provided for certain services and supplies, we will maintain a limited list of services or supplies that require prior authorization.

These services and supplies, including a listing of the prior authorization drugs, can be found on the Canada Life website as follows:

www.canadalife.com/001/Client_Services/Group_Plan_Members/Forms/Prior_Authorizations_Forms/index.htm

Prior authorization is intended to help ensure that a service or supply represents reasonable treatment.

If the use of a lower cost alternative service or supply represents reasonable treatment, an insured person may be required to provide medical evidence why the lower cost alternative service or supply cannot be used before coverage may be provided for the service or supply.

Health Case Management

If you apply for prior authorization of certain supplies or services, Canada Life may contact you to participate in health case management. Health case management is a program recommended or approved by Canada Life that may include but is not limited to:

- consultation with you and the attending physician to gain understanding of the treatment plan recommended by the attending physician;
- comparison with the attending physician, of the recommended treatment plan with alternatives, if any, that represent reasonable treatment;
- identification to the attending physician of opportunities for education and support; and
- monitoring your adherence to the treatment plan recommended by the attending physician.

In determining whether to implement health case management, Canada Life may assess such factors as the service or supply, the medical condition, and the existence of generally accepted medical guidelines for objectively measuring medical effectiveness of the treatment plan recommended by the attending physician.

Health Case Management Limitation

Canada Life can, on such terms as it determines, limit the payment of benefits for a service or supply where:

- Canada Life has implemented health case management and you do not participate or cooperate; or
- you have not adhered to the treatment plan recommended by the attending physician with respect to the use of the service or supply.

Health Case Management Expense Benefit

Expenses associated with health case management may be paid for by Canada Life at its discretion. Expenses claimed under this provision must be pre-authorized by Canada Life.

Designated Provider Limitation

For a service or supply to which prior authorization applies or where we have recommended or approved Health Case Management, we can require that a new service or supply be purchased from or administered by a provider designated by us, and:

- limit the covered expenses for a service or supply that was not purchased from or administered by a provider designated by us to the cost of the service or supply had it been purchased from or administered by the provider designated by us; or
- decline a claim for a service or supply that was not purchased from or administered by a provider designated by us.

Patient Assistance Program

A patient assistance program may provide financial, educational or other assistance to you with respect to certain services or supplies.

If you are eligible for a patient assistance program, Canada Life may require you to apply to and participate in such a program. Where financial assistance is available from a patient assistance program that Canada Life requires participation in, Canada Life will reduce the amount of a covered expense for a service or supply by the amount of financial assistance you are entitled to receive for that service or supply.

Submitting a claim

You may submit all Health Care claims online. To use the online service you will need to be registered for My Canada Life at Work and signed up for direct deposit of claim payments with eDetails. For online claim submissions, your Explanation of Benefits will only be available online.

Online claims must be submitted to Canada Life as soon as possible, but no later than 12 months after you incur the expense.

You must retain your receipt for 12 months from the date you submit your claim to Canada Life as a record of the transaction, and you must submit it to Canada Life on request.

For claims not submitted online, access My Canada Life at Work to obtain a personalized claim form or obtain a copy of the claim form that is available from your employer. Complete this form making sure it shows all the required information.

Make sure that your receipts include:

- the name of the person who received the service or supply
- the date the service or supply was received
- the type of service or supply and
- the cost

We must receive satisfactory proof of claim by the earlier of the following dates:

- June 30th of the year following the date of service or the date of purchase, or
- 90 days after the date the policy terminates.

Your Dental coverage

What is Your Dental coverage

We pay for the covered dental care charges that are incurred while the person is covered and care was provided by a licensed dentist, denturist, dental hygienist entitled by law to practice independently, anaesthetist or specialist. When we use the term “dentist” in this provision, we intend it to include all of the above.

How much we will pay

The amount we will pay is based on the current Dental Association Fee Guide for General Practitioners or Dental Hygienist Fee Guide.

We base coverage on the cost of the least expensive treatment that could be used to treat or prevent the dental problem. If the cost of the dental work given is more than the cost of the least expensive treatment, we will only cover the cost of the least expensive treatment.

We will pay a percentage of the covered dental costs, up to any maximum amounts stated in the description of the benefit. Before we pay a benefit under this coverage, you must pay the deductible amount if any.

There is no deductible for covered dental costs.

The following is an overview of what we will pay. Please see the "What you are covered for" section for specific details.

Preventive coverage

100% of Preventive covered costs with no deductible.

Maintenance coverage

100% of Maintenance covered costs with no deductible.

The maximum we will pay for Preventive and Maintenance covered costs combined is unlimited.

Major restorative coverage

50% of Major restorative covered costs with no deductible. The maximum we will pay is \$1,000 per covered person in a calendar year.

Orthodontic coverage

50% of Orthodontic covered costs with no deductible. The maximum we will pay is \$3,000 per covered person in a lifetime.

Limitation

If you enrol more than 31 days after the end of the waiting period for coverage, the maximum amount payable to you for charges incurred during the first twelve months of coverage will be \$250. The full coverage offered under this Dental coverage provision will begin after twelve months.

Please refer to the “General Terms” section for details on the waiting period for coverage and enrolment procedures.

When your Dental coverage ends

Please see "When your coverage ends" in the “General Terms” section for additional terms that apply when your coverage ends.

When your Dental treatment will cost more than \$500

If the cost of any dental treatment will be more than \$500, we recommend that you send us a “pre-determination” before the treatment is started. A pre-determination is a report describing the proposed treatment and cost. We will determine how much of the treatment is covered and give a written estimate of how much the covered person will be responsible to pay before the treatment begins.

We may also need the following information:

- a fully completed written estimate; and
- pre-operative x-rays, study models, and laboratory reports.

If we ask for the above information, we cannot process the pre-determination or pay any claim until we receive it.

D. Posts in Retainers/Abutments

These are posts and cores used for additional support to the retainer/abutment. Posts and cores are covered only if it has been more than 60 months since the last installation to that tooth.

Orthodontic Coverage

These are procedures used to correct crooked or misaligned teeth. This includes all necessary dental treatment needed to correct this problem such as examinations, x-rays, models, photographs, reports and surgical exposure of teeth, appliances and adjustments.

We require that a treatment plan prepared by the dentist be sent to us. We will then pay up to 30% of the cost at the beginning of treatment, minus the diagnostic fee. We will calculate the remaining payments by dividing the rest of the cost by the number of months in the treatment plan. We will pay monthly or quarterly, depending on when the dentist bills us or when we receive the receipts. We will not make any advance payments.

The cost of dental treatment that is not an orthodontic service but is needed because of the orthodontic treatment will be included and covered as if it were an orthodontic service.

What you are not covered for

We will not pay for:

- dental services or supplies that the covered person is eligible to claim under the Workers' Compensation legislation
- any dental charges not included in the current Dental Association Fee Guide for General Practitioners or Dental Hygienist Fee Guide

- any treatment related to orthognathic surgery (remodelling or reconstruction of your jaw)
- procedures or supplies used in vertical dimension corrections (changing the height of the teeth) or to correct attrition problems (worn down teeth);
- implanting fabricated teeth or any major surgery resulting from implanting fabricated teeth
- any crowns, bridges or dentures for which tooth preparations were started before the effective date of coverage
- any orthodontic services received before the effective date of coverage

Your Short Term Disability coverage

In this section, you and your mean the employee.

What is Short Term disability coverage

If you become disabled while insured under this policy and suffer a loss of earnings as a result, you may be eligible for Short Term Disability payments subject to all of the terms of this coverage.

Short Term Disability premiums will not have to be paid while you are receiving Long Term Disability payments under the "Long Term Disability coverage" section of this policy provided this Short Term Disability coverage section remains in force.

What is the definition of disability

When used in this Short Term Disability section, disabled means because of disease or injury, there is no combination of duties you can perform that regularly took at least 60% of your time at work to complete. Disability is assessed on the basis of the duties you regularly performed for the employer before disability started. The availability of work is not considered when assessing disability.

If disease or injury prevents you from performing a duty, it will also be considered to prevent you from performing

- others that are performed only in order to complete that duty; and
- others that can only be performed after that duty is completed.

How much we will pay

66.67% of weekly earnings, rounded to the next dollar, up to a maximum of \$2,300 per week.

Proof of insurability must be provided by you and approved by us for any amount of coverage over \$1,850 per week.

We will make Short Term Disability payments weekly in arrears.

We will calculate how much we will pay based on all of the following:

- the amount of coverage that is in effect at the start of your continuous period of disability
- less than half of one day will not be considered a day of disability
- the amount of coverage will be based on the lesser of your actual earnings and the level of earnings on which the premium for this coverage was paid
- the amount of the payment is the amount of your coverage reduced by any amount described in the “When we reduce your payments” section

If you are disabled for any part of a week, we will pay 1/5 of the amount of the weekly payment for each regular work day you are disabled.

A regular work day is any day you are scheduled to work or would be scheduled to work if it were not a holiday or vacation day.

Tax status

Payments are non-taxable.

Waiting period for payments

Accident

If you are disabled by an accident, there will be a waiting period of seven consecutive days. When used in this Short Term Disability section, accident means a bodily injury that occurs solely as a direct result of a sudden and unexpected action from an outside source.

Illness or injury

If you are disabled by an illness or injury, there will be a waiting period of seven consecutive days.

If you do not see a physician during the waiting period, you will only be eligible for payments from the date you saw a physician.

Start date of disability

Start date of disability means the first regular work day you are unable to work due to the disability.

If you become disabled while on a leave of absence, we will consider the scheduled return-to-work date as the start date of disability. If you have been designated by the employer as working only ten months of the year and become disabled during the period between the end of one school year and the start of another, we will consider the scheduled return-to-work date as the start date of disability. The waiting period for payments begins on that date.

If you become disabled while outside Canada and the United States, we will consider the date you return to Canada or the United States as the start date of disability. The waiting period for payments begins on that date.

When your Short Term Disability payments end

Short Term Disability payments will end on the earliest of the following dates:

- the date you no longer meet the definition of disability
- the date you do not supply us with appropriate medical documentation showing how the illness or injury prevents the performance of the essential duties of your occupation
- the date you engage in work for wages or profit (other than in an approved rehabilitation program)
- the date you have received 26 weeks of weekly payments for a continuous period of disability

When your Short Term Disability coverage ends

Please see "When your coverage ends" in the "General Terms" section for additional terms that apply to when your coverage ends.

What happens if a disability occurs again

If we stop making Short Term Disability payments because you are no longer disabled and you became disabled again within 14 consecutive days due to the same or a related condition, the new period of disability will be considered part of the same continuous period of disability. In such case:

- a new waiting period will not apply
- the payment will be the same as when the first claim ended, and
- payments will not be made beyond the maximum period shown under the "When your Short Term Disability payments end" section

You must re-apply for disability payments by filling out a new claim form.

When we reduce your payments

You may be eligible to apply for and receive benefits from other sources during the disability. For the purpose of any calculations under this provision, we will automatically reduce the disability payments by the full amount of any benefits you are eligible to apply for and receive, before any income tax and/or any other deductions, under:

- any Workers' Compensation Act or similar legislation
- the Canada/Quebec Pension Plan
- to the extent permitted by law, any automobile insurance plan that does not take income benefits under the Employment Insurance Act (Canada) into account when determining benefits

If you receive a lump sum payment from any of the above, we will divide the payment by the number of weeks for which you would have been eligible to receive the benefit and reduce each of our weekly payments by that amount.

If you have not applied for these other benefits, or if your application has not yet been approved, we may estimate the amount you may be eligible to receive and reduce your payments by that amount. If we are notified in writing that your application for these other benefits, or any appeal, has been declined and we determine that this decision should be subject to appeal, you must file an appeal and we may continue to reduce your payments until we are notified in writing that such appeal has been declined.

What you are not covered for

We will not make Short Term Disability payments if a disability results directly or indirectly from:

- self-inflicted injury
- substance abuse unless you are participating in a treatment program approved by us
- war, rebellion or hostilities of any kind whether or not you are a participant
- participation in a riot or a civil disturbance
- committing a criminal offence or provoking an assault
- an accident while you were operating a vehicle, vessel or aircraft, if you
 - a) were impaired by drugs or alcohol, or
 - b) had a blood alcohol level higher than 80 milligrams of alcohol per 100 millilitres of blood

We will not make Short Term Disability payments if you:

- are on a leave of absence, including maternity/parental leave
- are outside of Canada and the United States, unless we approve the absence
- are working or engaged in any business or occupation for wages or profit
- continue to receive a salary from any employer
- are not under the continuing care of a licensed physician or surgeon
- are not receiving treatment that we consider appropriate
- do not attend an examination by a physician of our choice
- are receiving severance pay, a damages award or other payment due to termination of the employment relationship. If any such payment or award is received in a lump sum, we will stop making Short Term Disability payments for a period equal to the number of weeks the lump sum amount represents relative to your pre-disability earnings

Submitting a claim

We must receive proof of claim within 90 days after the disability began, or 90 days after the plan terminates, whichever occurs earlier.

Your Long Term Disability Coverage

In this section, you and your mean the employee.

What is Long Term Disability coverage

If you become disabled while covered under the policy, you may be eligible for Long Term Disability payments subject to all of the terms of this coverage.

Once you have completed the waiting period and are receiving Long Term Disability payments, premiums will not be required from your start date of disability.

What is the definition of disability

During the first 24 months of payments, you will be considered disabled if unable to perform the essential duties of your own job for any employer due to illness or injury. The availability of work is not considered when assessing disability. You are not considered disabled if you can perform a combination of duties that regularly took at least 60% of your time to complete.

After 24 months of payments, you will be considered disabled due to illness or injury if you are unable to perform the essential duties of any occupation for any employer for which you are qualified or could reasonably become qualified based on education, training or experience. The availability of work is not considered when assessing disability.

You must also be unable to earn the same percentage of the monthly earnings used to calculate the payment amount in the "How much we will pay" section.

How much we will pay

67% of monthly earnings, rounded to the next dollar, up to a maximum of \$4,500 per month.

If you are disabled for part of any month, we will pay 1/30th of the monthly payment for each full day you are disabled. Payments will be made monthly in arrears.

We will calculate how much we will pay based on all of the following:

- the amount of coverage that is in effect at the start of your continuous period of disability
- the amount of coverage will be based on the lesser of your actual earnings and the level of earnings on which the premium for this coverage was paid
- the amount of the payment is the amount of your coverage reduced by any amount described in the "When we reduce your payments" section

Tax status

Payments are non-taxable.

Waiting period for payments

There will be a waiting period of 182 days of disability before you are eligible to receive Long Term Disability payments.

What happens if a disability occurs again

If you return to work for 30 days or less during the waiting period and again stop working because of the same or a related condition, the waiting period for payments will continue from where it left off.

If you cease to be disabled while Long Term Disability payments are being made and you become disabled again within six months due to the same or a related condition, the new period of disability will be considered part of the same continuous period of disability. In this case:

- a new waiting period will not apply
- the payment amount will be the same as when the first claim ended, and
- payments will not be made beyond the maximum period shown under the "When your Long Term Disability payments end" section

You must re-apply for disability payments by filling out a new claim form.

Start date of disability

Start date of disability means the first full day you are unable to work due to the disability.

If you become disabled while on a leave of absence, we will consider the scheduled return-to-work date as the start date of disability. If you have been designated by the employer as working only ten months of the year and become disabled during the period between the end of one school year and the start of another, we will consider the scheduled return-to-work date as the start date of disability. The waiting period for payments begins on that date.

If you become disabled while outside Canada and the United States, we will consider the date you return to Canada or the United States as the start date of disability. The waiting period for payments begins on that date.

When your Long Term Disability payments end

Long Term Disability payments will end on the earliest of the following dates:

- the date you no longer meet the definition of disability
- the date you do not supply us with appropriate medical documentation showing that you continue to meet the definition of disability
- the date you engage in work for wages or profit (other than in an approved rehabilitation program)
- the date you refuse to participate or stop participating in a rehabilitation program, recommended by us
- the date you reach age 65, or
- the date you die

However, provided you are under 65 years of age when the disability begins, disability payments will be made for at least 12 months while the disability continues.

When your Long Term Disability coverage ends

When you reach age 65.

Please see "When your coverage ends" in the "General Terms" section for additional terms that apply to when your coverage ends.

When we reduce your payments

You may be eligible to apply for and receive benefits from other sources during the disability. For the purpose of any calculations under this provision, we will automatically reduce your disability payments by the full amount of any benefits you are eligible to apply for and receive, before any income tax and/or any other deductions, under:

- any Workers' Compensation Act or similar legislation
- the Canada/Quebec Pension Plan or a similar plan of any other country, excluding child benefits to which any member of your family is entitled to apply for and receive as a result of your disability
- any provincial motor vehicle accident insurance plan that does not take Employment Insurance benefits into account when calculating its benefits
- any employer sponsored salary continuance or Short Term Disability coverage

Your payments will also be reduced so that payments from all sources will not exceed 85% of your net pre-disability monthly earnings. For the purpose of any calculation under this provision, we will consider the full amount of any benefits you are eligible to apply for and receive, before any income tax and/or any other deductions:

- under this policy
- under any Workers' Compensation Act or similar legislation
- under the Canada/Quebec Pension Plan (including child benefits to which any member of your family younger than 18 years of age is entitled to apply for and receive as a result of your disability), or a similar plan of any other country

- under any provincial motor vehicle accident insurance plan that does not take Employment Insurance benefits into account when calculating its benefits
- under any employer sponsored salary continuance or Short Term Disability coverage
- from any group plan, including any payments resulting from your membership in any association
- any retirement income provided under any retirement or pension plan of your employer
- under any other government plan, law or agency for the same or a subsequent disability, excluding Employment Insurance or its successors
- from any type of employment

If you have not applied for these other benefits, or if your application has not yet been approved, we may estimate the amount you may be eligible to receive and reduce your payments by that amount. If we are notified in writing that your application for these other benefits, or any appeal, has been declined and we determine that this decision should be subject to appeal, you must file an appeal and we may continue to reduce your payments until we are notified in writing that such appeal has been declined.

If you receive a lump sum payment from any of the above, we will divide the payment by the number of months for which you would have been eligible to receive the benefits and reduce each of our monthly payments by that amount.

Pre-disability earnings

Pre-disability monthly earnings means your monthly earnings on the day before the start date of disability. Net pre-disability monthly earnings means your monthly earnings on the day before the start date of disability after income tax has been deducted.

What is a Rehabilitation Program

Rehabilitation programs are designed to help you recover faster and return to work.

Rehabilitation programs may include returning to work on a part-time basis or returning to modified duties. You may be able to upgrade job skills and learn about searching for a new job or writing resumes.

We may pay for the cost of any special services or equipment you need to participate in a rehabilitation program. We will decide if a rehabilitation program is appropriate and we must approve any expenses in writing before they are incurred.

You will continue to receive adjusted disability payments while participating in a rehabilitation program. The payment amount you will receive while participating in a rehabilitation program is explained in the “What is a Return-to-Work Allowance” section.

If you are reasonably suited to participate in a rehabilitation program and refuse to do so, we will stop making Long Term Disability payments.

What is a Return-to-Work Allowance

If you receive earnings from employment that is part of an approved rehabilitation program, payments will not be reduced unless your income from all sources exceeds 100% of net pre-disability earnings. If income from all sources exceeds 100% as indicated above, Long Term Disability payments will be reduced by the amount in excess of 100%.

After 12 months, your Long Term Disability payments will be further reduced in direct proportion to the percentage difference of your net earnings under the rehabilitation program compared to your net pre-disability earnings. For example, if your net rehabilitation earnings are 30% of your net pre-disability earnings, your Long Term Disability payments will be reduced by 30%.

What you are not covered for

We will not make Long Term Disability payments if a disability results directly or indirectly from:

- intentionally self-inflicted injury
- substance abuse unless you are participating in a treatment program approved by us
- war, rebellion or hostilities of any kind whether or not you are a participant
- participation in a riot or a civil disturbance
- committing a criminal offence or provoking an assault
- an accident while you were operating a vehicle, vessel or aircraft, if you
 - a) were impaired by drugs or alcohol, or
 - b) had a blood alcohol level higher than 80 milligrams of alcohol per 100 millilitres of blood

We will not make Long Term Disability payments if you:

- are on a leave of absence, including maternity/parental leave
- are outside of Canada and the United States, unless we approve the absence
- refuse to participate or stop participating in a rehabilitation program or return-to-work program for which you are reasonably suited
- are not under the continuing care of a licensed physician or surgeon
- are not receiving treatment that we consider appropriate
- do not attend an examination by a physician of our choice
- are in a psychiatric facility, jail, prison or any correctional facility, because of a criminal offence
- are receiving severance pay, a damages award or other payment due to termination of the employment relationship. If any such payment or award is received in a lump sum, we will stop making Long Term Disability payments for a period equal to the number of months the lump sum amount represents relative to your pre-disability earnings

Submitting a claim

We must receive proof of claim within 90 days after the end of the Long Term Disability waiting period, or 90 days after the policy terminates, whichever occurs earlier.

Additional Information on Life coverage

Waiver of Premium provision

What happens to the premiums if you become totally disabled

When you become disabled, prior to age 65, we will waive the premiums for your Employee Life and/or Employee Optional Life if you have been disabled for 6 continuous months or were disabled at the time of death.

Waiving the premium means your amount of coverage that was in effect at the time of disability will continue without payment of premiums.

However we will waive the premiums on the date your claim for Group Long Term Disability payment under this policy is approved.

For the purposes of this coverage disabled means you are unable to perform the essential duties of any occupation for your employer or any other employer for which you are qualified because of education, training or experience. However if your claim for Group Long Term Disability payment under this policy is approved, you will be considered to be disabled.

Your Life coverage will continue under this provision as long as you remain disabled or you reach age 65, whichever occurs earlier.

Termination of the policy will have no effect on your coverage, while premiums are waived.

We must receive proof of disability within twelve months of the start date of your disability. We will require proof of the ongoing disability from time to time. This proof may be medical information from your physicians or a request to be examined by a physician of our choice. If you do not provide the proof of disability within three months of the date we requested it, premiums will no longer be waived.

If you are no longer disabled and you do not return to work with your employer, or you return to work with your employer but the policy has terminated, Life coverage will end. You may have the right to convert your Life coverage. Please refer to the "Converting your Life coverage" section.

Converting Your Life coverage

If you are under age 70 and your Employee Life coverage or your Employee Optional Life coverage under this policy ends for the following reasons:

- your employment ends
- you no longer qualify as an employee
- this policy ends
- your class is no longer covered

you may convert this coverage to individual insurance.

Written application must be made to us accompanied by the first premium within 31 days after coverage ends. This is called the 31-day conversion period. The Individual insurance will not begin until the end of this 31-day conversion period. If you die during the 31-day conversion period, we will pay the maximum amount of insurance you were entitled to apply for.

The premium rate for the individual insurance will be based on:

- the Individual Life and/or Group rates
- the amount of insurance, and
- the age of the person whose life is to be insured on the birthday closest to the date the policy starts.

The individual policy will be one of the standard life insurance conversion policies available by Canada Life or any of its affiliates.

What you are not covered for

We will not pay any amount of Employee Optional Life coverage, if suicide is committed within two years of the date coverage begins and/or is increased.

Submitting a claim

We will pay benefits to you or your beneficiary when we receive satisfactory proof of claim.
